Increase Your Opportunity

Don't let overlooked activities stop you from getting what you deserve

With an industry as fast paced, and highly competitive such as the Chemical sector. You have to be able to come head to head with your competitors, and meet the requirements to stay at the top. Companies are able to use the generous tax incentives given each year through the SR&ED Tax Credit Program to further their success.

Examples of Eligible SR&ED activities: (Chemical)

- Minimize catalyst batch-to-batch variability in order to increase the consistency of our resin.
- Design and develop an FTIR analyzer sufficiently robust that it can handle a wide variety of process effluent streams and sludge from the plant, on-line.
- Develop a new type of liquid coating release agent for use on ceramic surfaces.

If you find your company currently takes part in any of these activities, then why wait to take advantage of the SR&ED tax credit program to receive healthy credit for your innovations?

You are only a few steps away from getting what your company truly deserves for creating, innovating, and developing new products or process.

The Scientific Research and Experimental Development Program:

SR&ED incentives take the form of tax credits, and accelerated or additional tax deductions for expenditures made on research and development. Canadian businesses of all sizes, in all sectors are eligible to receive SR&ED tax credits. The incentives range from 20% of the expenditure, to almost 50% in favorable circumstances.

SR&ED expenditures can include **wages, materials, machinery, equipment, overheads,** and **SR&ED contracts.**

Braithwaite Technology Consultants Inc. can assist you in obtaining tax credits for research and development activities. Whether your work involves basic research, applied research, or experimental development, Braithwaite can take the uncertainty out of the filing process and get you the credit you deserve for your innovation.
